

70th Anniversary of the bombing of Hiroshima

6 August 2015 marks the 70th anniversary of the bombing of Hiroshima.

Centrecare is in solidarity with the Japanese people as they remember the horror of that day that resulted in over 100,000 lives being lost and many others affected by long term injuries, illnesses and genetic abnormalities.

Remembering Hiroshima reminds us of the senselessness of war, that carries with it the loss of innocent lives and leaves so many broken in body and mind, without parents, or devastated by the loss of a loved one.

We urge world leaders to learn from the destructive nature of war and past atrocities and help create a peaceful, compassionate and benevolent world.
