

# Universal Co-design Esperance

We are seeking your wisdom and knowledge through your lived experience of suicide to inform the National Best Practice Guidelines for the enhancement and establishment of aftercare, postvention and distress brief support services.

There will be a face-to-face workshop style session exploring **Aftercare** services in Esperance, Western Australia. This supports the jointly-funded agreement between the Commonwealth Department of Health and Western Australia Mental Health Commission.

We are seeking the voices of those with a lived experience of suicide attempt and those who have supported a loved one who has attempted suicide. If you would like to contribute to this important work, please access the website or QR below to express your interest.

The session will be held:

Date: 30 May 2023

Time: 9:00am - 3:00pm

Location: Esperance (venue TBC)

In addition to this session, there is opportunity to contribute online to the national conversations for distress brief support and postvention services.

Your contribution is greatly valued, and this is a paid opportunity.

For further information and to register your interest in participating in this project, please use the QR code for visit for more information:
