resilience in children, adults,

CENTRECARE

"People Making Time for People"

MENCORP 7006

There is an identified need for services to support children and young people who are showing early signs of, or are at risk of developing mental illness. The aim is to improve their wellbeing and enable them to better participate in their communities and reach their full potential.

As a child/young person would you like to:

- increase your knowledge and awareness of your safety and risk taking behaviour;
- identify protective strategies;
- understand your feelings better and be aware of how emotions trigger behaviour;
- increase your school attendance and engagement; and/or
- connect and engage with other appropriate services?

As a parent/caregiver would you like to:

- better understand how to identify and respond appropriately to unsafe/at risk situations and behaviour in your children;
- increase your knowledge and confidence of parenting roles, responsibilities and positive parenting strategies;
- have an increased understanding of a 'healthy living lifestyle' for your family; and/or
- engage and connect with community services?

If you answer "yes" to any of the above questions, then this service may be of help to you.
